

## GREAT LABOR WAR IN SPAIN REGARDED AS A FINISH FIGHT

Both Sides Determined as  
Lockout Is Declared by  
Employers in Barcelona.

MADRID, Nov. 4 (Associated Press).—The lockout which began in Barcelona last night has started a fight to a finish between the employers and the workmen of Spain, leaders on both sides declared.

Prominent citizens have brought pressure to bear on the Barcelona employers to change their attitude, and it is reported here that both employers and workers have consented to arbitration.

Each side is well organized and determined, but the workmen are considered the better organized. The employers have many members who are lukewarm in support of the lockout, while the workmen—or Syndicalists, as they are called here, who include professional unionists as well as laborers—are closely united, knowing that their organization has done much to improve their condition and expecting that it will do more.

The Syndicalist movement—which had a small beginning, but now reckons 200,000 followers in Barcelona alone, including employees of the great textile and other factories—is led by Senor Segin, a young painter, twenty-six years old, and Pastana, formerly a priest, now an editor, who belongs to the Intellectual Party.

The Syndicalists claim to work purely for better social conditions for their members, who are free to belong to whatever political party they please. The Syndicalist movement has pushed into the background the movement for the separation of Catalonia from Spain and has spread from Barcelona to all the centers of the country. It has the support of, or at any rate is not opposed by, many of the papers, whose staffs for the most part are Syndicalists.

The employers, on their side, assert that the Syndicalists are carrying on a reign of terror, that the operatives in all branches of trade and industry have been forced to join the Syndicalists under threats of violence and that the Government has not afforded them protection to carry on their business. The new demands have been steadily growing and therefore the employers decided on a lockout as the only means of forcing the Government to do something to check the Syndicalists.

Minister of the Interior Burgos confirms the reports received here that

tranquility prevails in Barcelona and he states that the Government is still working for a settlement of the trouble.

Only two newspapers, the radical organs *Progreso* and *Liberal*, out of the nine important papers published in Barcelona appeared this morning. The proprietors of the other papers locked out the employees, who belong to the union council and considerable numbers of whom had refused to work with reporters who are not members of the union.

Practically all the Barcelona factories are closed. A few troops patrol the streets, which were crowded today, mostly with curious spectators. The stores closed two hours this afternoon in sympathy with the employers.

The lockout has not yet extended beyond Barcelona and work is continuing in all nearby towns. The strike of bakers and builders at Seville, which began Friday, has failed, the Spanish Government employing soldiers to bake bread enough for the city and to do all necessary construction. But clerks in the stores have decided to strike to-morrow for higher wages and shorter hours.

The dock strike at Gibraltar, which has been in progress for some time, is causing much inconvenience. It is feared that there will be a shortage of food, especially of meat, which it is impossible to land.

Alfonso Pays Many Calls.  
LONDON, Nov. 4.—King Alfonso of Spain passed the forenoon quietly, his official appearances being confined to calls upon Prime Minister Lloyd George and Foreign Minister Curzon. He lunched with the Duke of Connaught and dined to-night with Princess Beatrice, mother of the Queen, at Kensington Palace. The dinner was followed by a small dance. On Sunday the Spanish King and Queen lunched at Buckingham Palace with King George and Queen Mary.
